Parent & Tot

In Parent and Tot lessons, you will learn how to safely enter and exit the water with your little one. Parents will learn how to support their child while discovering the water through splashing, kicking, blowing bubbles, floating and becoming comfortable with water on their face.

Pre-School 1-3

The swimmer will start by mastering assisted floats, glides, submersion and PFD safety. These skills are all necessary in order to move on to Swimmer level 1. Pre-School levels 4 and 5 are available if your child has mastered Pre-School levels 1-3 but is under the age of 6. These levels challenge your swimmer by introducing front crawl, back crawl and surface support.

Swimmer

Swimmer levels 1-3 will work on safe entries and exits, floats, glides, kicks, front crawl, back crawl, whip kick and jumping into deep water. They will continue to learn PFD safety in deep and shallow water. By level 3 swimmers will get to try dives and forward rolls into deep water. These swimmers will begin fitness training.

Swimmer levels 4-6 will swim further with their front and back crawl, as well as their whip kick. They will be introduced to breaststroke, shallow dives and sprints. All distances and times will increase throughout these levels to build endurance.

We appreciate your patience and understanding as we adapt to our updated training and operations standards. If you have any further questions or concerns, do not hesitate to contact the pool by phone (306) 867-9643 or by email pool.outlook@sasktel.net.
