

Report Type: Recreation Report

For Meeting Date: November 10th, 2021

Report Date: November 5th, 2021

Prepared By: Megan Anthony

1. CO-OP Community Rink: The interior dirt work has been completed by Wright Construction. We are planning to do the exterior dirt work in the coming weeks before it gets too cold.
2. Rec Plex: The Condenser fence has been repaired by Nordic Fencing. The curling ice is in and we just need to do ice maintenance! We are currently fully staffed for the Rec Plex workers and they have all really stepped up to ensure our facility is cleaned and maintained that way. Our next big project is putting the ice in the CO-OP Community Rink which will start when temperatures are consistently -10 for about a week or two.

Things in the Recreation Department are busy but running smoothly.
